

WHAT THEY ARE SAYING ...

I LOVED working with the digital "package"!!! ... The whole process for your concert MARIETTA from beginning to end was EXACTLY what I wanted and for [which] I had been searching for several months!! As I mentioned to you, I perused the OH Light Opera version, as well as BOTH of the Tams versions. I was preparing myself to adapt one of these three for a concert, but your version perfectly fit the bill!...and made my life MUCH easier!!! Thank you for your wonderful work on this project.

The absolute best day of each month is the day the VHSOURCE Newsletter arrives. The work you are accomplishing is such an important addition to the world of music and theatre. And the newsletter is so much FUN to read. It's as if in each issue you are bringing Victor Herbert back to life again for us. Please keep up the wonderful work, and...
Thank you! Thank you!! Thank you!!!

I quote from our guy who deals with our contracts for royalty shows: "What an amazingly simple and reasonable contract! Compare it to one from MTI, and you'll see how easy a royalty show can be." Good job!

"I think an "electronic product" - even of the libretto - is worth paying for. You have provided added value."

Thanks so much -- got the score; looks great. I want you to know how much I appreciate the level of convenience I experienced with this transaction. Getting sheet music online is almost never this easy. It's been a pleasure doing business with you! Thanks again.

This wonderful essay is a masterpiece and should be read by millions interested in musical theatre and opera. Please include this in your book of compiled Victor Herbert Operetta articles for in depth studies. I love the show business inside stories. Great work.
