Orchestrations

Here you will find the full original score and orchestra parts for single songs from Herbert operettas.

With all Shop VHSource products you will find full scores available.Â This is not the case with traditional rentals of Herbert material as full scores were never official published by leasing houses.Â Because our vendors are working from the original handwritten Herbert manuscripts, full scores are available for the first time.

To allow anyone in the world with basic equipment to print out our scores, you will receive them in 8 1/2 x 11 formatting.Â Print them out and utilize a photocopier to enlarge them to the desired size.

Traditionally, these songs are conducted from the piano/vocal score since full scores never existed before. You may find this easier.Â Should you need a piano/vocal of the song, go to the Performance Package section of **Shop VHSource**. There you can purchase a package containing everything you need. Click on the menu to your left for a short cut.

All scores and parts match the original piano/vocal and key of the song within the operetta. They do not necessarily match later published sheet music, especially not in key signatures.Â This is all original material as it was used in operettas.
